

CAPABILITY STATEMENT

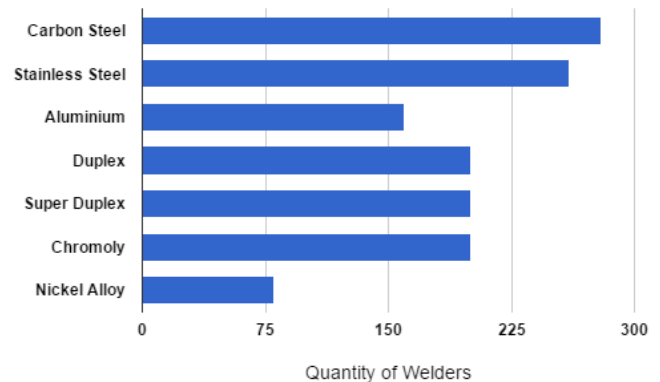

REKMAL has a proven track record in the power, oil and gas, petrochemical, nuclear, mining, aluminium processing and structural steel fabrication industries. We have worked for multinationals including DPSCo, BOC Gases, Linde Gases, Shell, Woodside Petroleum, Clough, BHP Biliton and Leightons. Our dedication to quality and safety has made us a preferred choice for many of these companies. Industry recognised and all work conforming to the appropriate Australian standards, Rekmal has built a reputation that is second to none in quality and on-time performance.

With high-profile projects ranging from the award-winning Spencer Street Railway Station roof construction to the Modular Fabrication of both Benzene oil refineries for Shell (Australia), we have demonstrated our ability to take on challenging projects and deliver results of the highest quality.

At Rekmal we believe that there is no challenge too difficult and no project too challenging for our skilled, qualified and experienced team.

PRAISE

“The Company of highly skilled craftsmen, have always performed in an exemplary manner, consistently meeting BOC’s required quality standards and schedule requirement”

Collin Mill – Construction Superintendent, Transfield-Worley/BOC alliance, 600 ton per day oxygen pant, Bulwer Island Brisbane

“It has been a pleasure having Anthony and his team on the project as they have proved to be competent and self motivated workers...The conditions at Lihir are far from perfect, but Anthony and his team put in maximum effort with minimum fuss”

Andrew Fenwick – Project Manager, Lihir Island Oxygen Plant, Papua New Guinea

“All work activities were carried out to the highest standards and I found that all employees have a positive attitude towards quality and safety”

Peter Teuffel – Construction Manager, Linde (Australia) Pty Ltd, Murrin Murrin Project

“The performance of KSK was excellent. ... The most memorable aspect of their work was their professionalism in work and behaviour. Despite the fact that Forge Group was going through major financial difficulties which created – in it turn – commercial issues with sub-contractors, KSK was able to maintain a high level of performance.”

George Neill – Project Manager, Forge Group, Diamantina Power Station, Mount Isa, Queensland
